

Data sheet

IgG from rabbit serum

Cat. No: SUR001-I

Cat. No: SUR002-I

Introduction

Rabbit IgG is an unconjugated rabbit polyclonal antibody isolated using fractionation and affinity chromatography. The material for this product was processed from the serum of healthy animals prior to immunization. The purified antibody is not directed against any known antigen.

Applications

- Immunoassay.
- Immunohistology.

Storage buffer: PBS, pH 7.6.

Preservative: no preservative.

Concentration: 5 mg/ml (Protein concentration was determined by extinction coefficient: absorbance at 280 nm of 1.4 equals 1.0 mg of IgG).

Purity: 95% (SDS-PAGE).

Product Size

	SUR001-I	SUR002-I
IgG from rabbit serum*	20 mg	50 mg

*5 mg/ml

Storage

IgG from rabbit serum is stable when stored at 4°C for up to one month. For longer term storage, store at -20°C. Repeated freezing and thawing is not recommended.

PRODUCT USE LIMITATION

This product is developed, designed and sold exclusively for research purposes and in vitro use only. The product was not tested for use in diagnostics or for drug development, nor is it suitable for administration to humans or animals. Please refer to www.canvaxbiotech.com for Material Safety Data Sheet of the product.
